ABOUT ME

Full Stack Developer with hands-on experience building scalable web applications using React, Node.js, Express, Java, and Spring Boot. Strong foundation in RESTful API development, responsive UI design, and database management (MySQL, MongoDB). Passionate about creating clean, efficient, and user-focused solutions while continuously improving technical and problem-solving skills.

EXPERIENCE

Associate Software Engineer

Accenture Philippines • Bonifacio Global City, Taguig, Metro Manila

- **Full Stack Developer** (Java, Spring Boot, MySQL, HTML, CSS, JavaScript, React) – Developed a full-stack e-commerce web application using React and Spring Boot, implementing product listing, shopping cart, and REST API integration.
- **Technical Support Representative L1** - Worked with Google Workspace at Accenture. Explained technical solutions in simple, non-technical terms to assist customers. Collaborated with team members to resolve cases and maintain high service quality.

EDUCATION

Bachelor of Science in Information Technology

Web and Mobile Application Development

Oct 2020 - Jul 2024

Bulacan State University

Cum Laude

Senior High School

Technical Vocational Livelihood (Programming)
